Global Trade Management

TradeFlow: The Complete Global Trade Platform

The Chaos of International Trade

Fragmented Tools

Disconnected systems create zero single source of truth.

Manual Tracking Blind Spots

Lack of real-time visibility leads to operational delays.

One Platform for Every Operation

Negotiation Management

Track every deal from lead to contract.

Shipment Tracking

Real-time updates enhance visibility and decision-making.

Document Vault

Instant access to critical commercial documents.

Workflow Overview

Lead & Negotiation

Capturing inquiries and negotiating terms efficiently.

Proposal & Contract

Delivering formal offers and finalizing agreements promptly.

Order Closed

Converting contracts into confirmed operational orders smoothly.

Shipment & Delivery

Monitoring goods in transit until completion effectively.

Negotiations

Monitor active deals in real-time for insights.

Shipment Monitoring

Track shipments live to ensure timely deliveries.

Leadership Reports

Access real-time data for informed decision-making.

Multi-User Access

Collaborate easily with role-based permissions for teams.

Collaboration

Seamlessly connect teams across different operational levels.

Connectivity

Integrate all stakeholders into a unified platform.

Instant Queries

Effortlessly extract real-time shipment information instantly.

Risk Detection

Proactively identify potential compliance issues early on.

Automated Drafting

Create structured offers directly from trade contexts.

Deal Summaries

Condense complex negotiations into actionable insights.

Collaborative Insights

Foster collective decision-making across trade operations.

Scalable Pricing Plans

Choose Your Business Tier
